We have examined management of Bridge Building Inc.'s (the "Company") assertion that the amounts of Hyperliquid USD ("USDH") supply outstanding and the composition of assets held in reserves are accurate, and the fair value of the reserves are equal to or greater than the number of USDH supply outstanding in accordance with the criteria defined in the accompanying USDH Reserves Report as of November 28, 2025 at 11:59:59pm UTC (the "Report Date"). Management of the Company is responsible for its assertion. Our responsibility is to express an opinion on management's assertion based on our examination.

Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertion is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about management's assertion. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management's assertion, whether due to fraud or error. In making an assessment of the risks of material misstatement, we considered and obtained an understanding of internal control relevant to management's assertion in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, no such opinion is expressed. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

In our opinion, management's assertion that the amounts of USDH supply outstanding and the composition of assets held in reserves are accurate, and the fair value of the reserves are equal to or greater than the USDH supply outstanding as of the Report Date in accordance with the criteria defined in the accompanying USDH Reserves Report, is fairly stated, in all material respects.

The Company is responsible for the completeness, accuracy, and validity of the USDH Reserves Report as of November 28, 2025 at 11:59:59pm UTC (the "Report Date").

### Management's Assertion

The management of the Company asserts the following as of the Report Date:

- The amounts disclosed below for the USDH supply outstanding (Exhibit A) and the composition of assets held in reserves (Exhibit B) as of the Report Date is accurate;
- The fair value of the reserves, as of the Report Date, is equal to or greater than the USDH supply outstanding (Exhibit C); and
- The total USDH supply outstanding and total fair value of the reserves, in aggregate, as of the Report Date, is reported as follows:

November 28, 2025

USDH supply outstanding (Exhibit A)		59,195,855
Fair value of the reserves (Exhibit B)	\$	59,259,514

### Criteria

The total USDH natively minted tokens and redeemable tokens outstanding (Exhibit A), the composition of assets held in reserve at fair value and by asset type (Exhibit B), and the comparison of the two (Exhibit C), are prepared in accordance with the American Institute of Certified Public Accountants' ("AICPA") 2025 Criteria for Stablecoin Reporting: Specific to Asset-Backed Fiat Pegged Tokens<sup>1</sup> (the "AICPA Criteria").

The total fair value of the reserves (Exhibit B) is equal to or greater than total USDH supply outstanding (Exhibit A), as presented in Exhibit C. The criteria we used in making this assertion were that the total redemption assets, which are defined as unencumbered assets held by the Company in segregated accounts on behalf of the USDH token holders and measured as described in Exhibit B, are equal to or greater than the USDH supply outstanding, which are defined in the AICPA Criteria.

To the best of the knowledge and belief of the undersigned, the information contained in the USDH Reserves Report as of the Report Date is accurate and complete.
